

1MORE
HEAR & NOW

1MORE INC.

1MORE is a consumer electronics company that focuses on acoustic technology research, headphones, smart hardware, and firmware device design.

Official website: www.1more.com

1MORE = Always surpass ourselves

Culture

Respond to the nature and human being

Advantages

- Innovations to market
- High efficiency in operation
- Long term accumulation of core technologies

Mission

Perfect combination and consistent innovation of acoustics and aesthetics

Vision

Most recommended headphone

Hear & Now

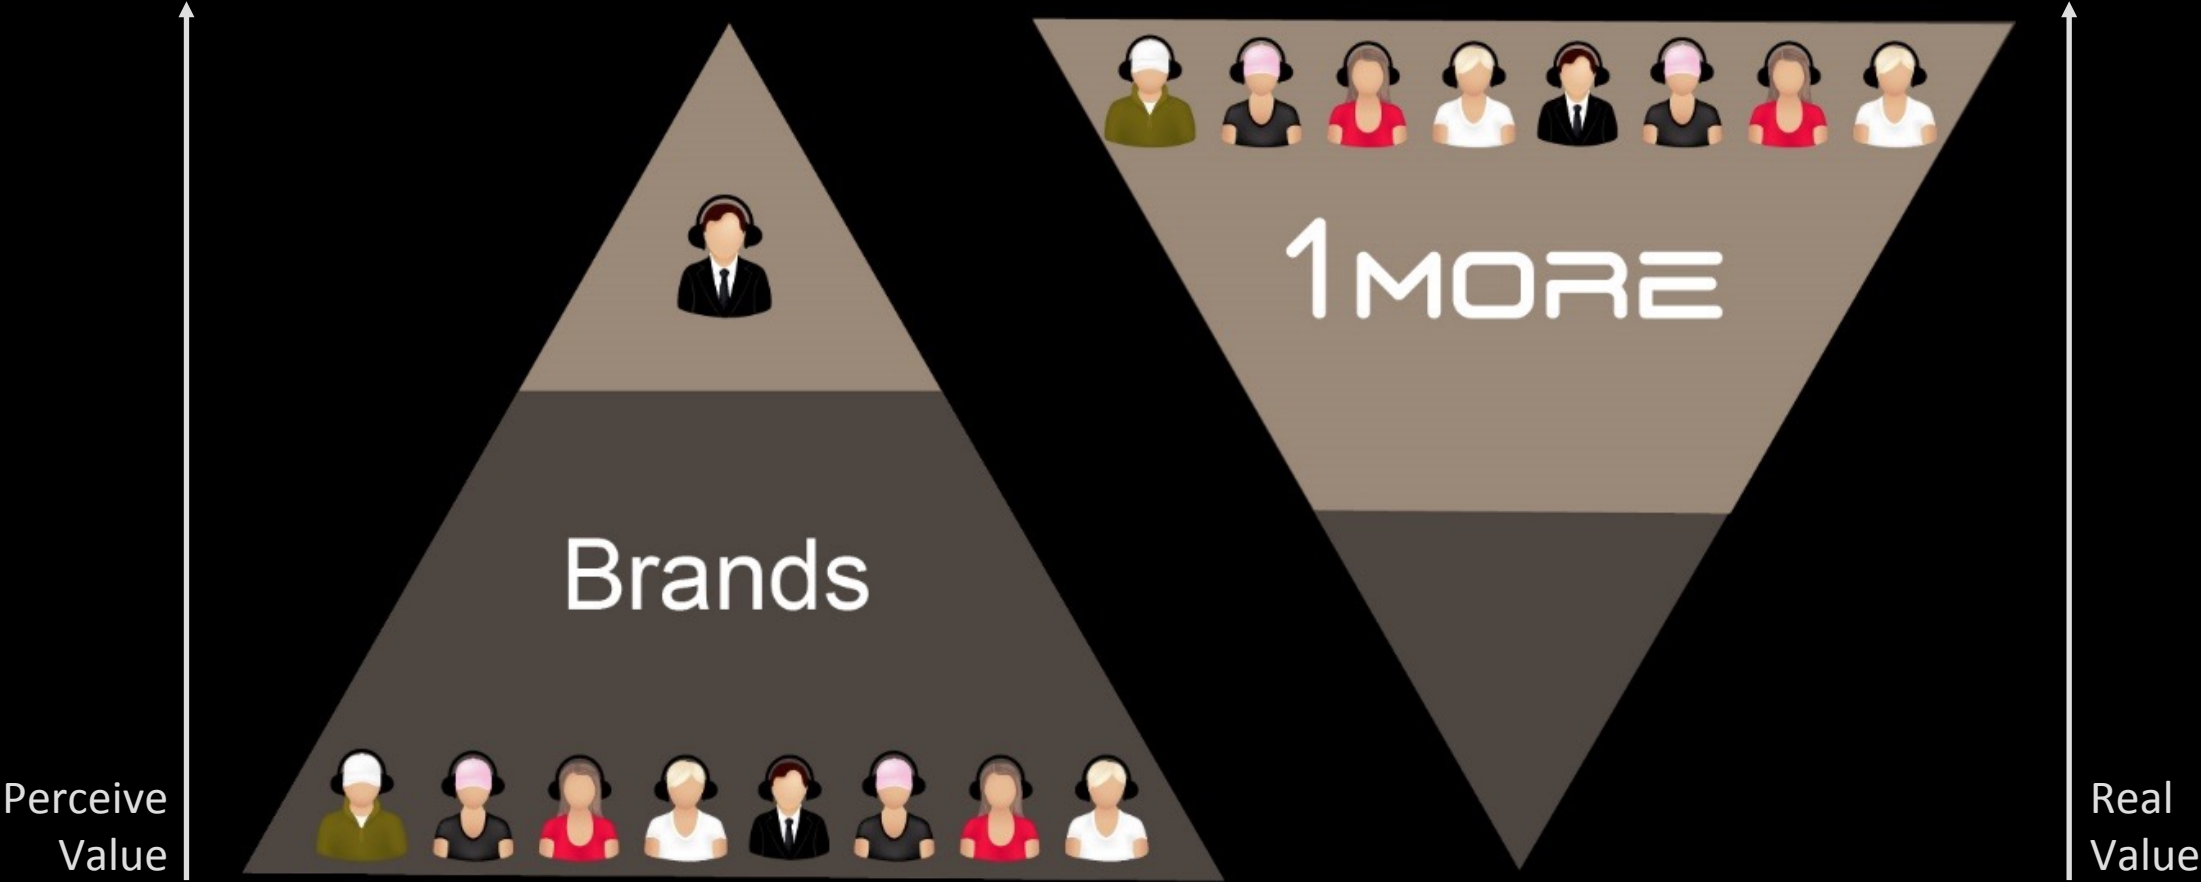

1MORE is devoted to bringing music to life. We believe music is the monologue of the soul. Through modern excellence in form and function 1MORE delivers sound that is powerful and pure. When you “hear” our “now” you will be at one with your music, for the goal of any great technology is to disappear.

Transparency runs through the heart of 1MORE. We over-engineer and over-test our products to create crystal clear audio with elegant esthetics. We transcend boundaries in a global alliance of Danish industrial design, Italian sound design, American brand design, and world-class Chinese design and manufacturing.

1MORE’s global efficiency and scale allows us to offer a level of quality and value that no other brand can. There may be a mountain of headphone brands. We don’t simply want to climb that mountain. We want to turn it upside down so everyone can reach the peak.

1MORE – Turn the mountain upside down

1MORE doesn't want to climb the mountain of headphone brands

But want to turn it upside down, so everyone can reach the peak

Team

- Executive responsibility for \$3B global projects and over 26 year experiences in ID and operation;
- Member of 1MORE brand strategy brain trust.

Alliance Partnership

Trade our key suppliers as strategic alliance partners.
Work together diligently with spirit of Forrest Gump.

REVIEWS / MEDIA

“These in-ears boast plenty of impressive features, but perhaps the most remarkable thing about them is the price: At \$100, they make others in their class look embarrassingly overpriced” Ryan Waniata, Digital Trends

“A terrific value product that will help reset the price performance bar for affordable portable audio.” Eric Neff, Headphone Guru

Forbes

“The entire experience is upscale, with no corners cut: fit, design, audio performance, packaging and accessories.” Brad Moon, Forbes

The Triple-Driver's sound is not only full and warm but nicely detailed. There's plenty of bass oomph and definition is decent enough. The midrange sounds clear and natural; this is a headphone that will appeal to audiophiles,” David Carnoy, CNET

TIME

[1MORE is] already recognized for making some of the best audio products in the world. They've been winning both design and audiophile awards around the world,” Kevin Kelleher, Time Magazine

“This in-ear headset performs well above its pay grade. 1MORE could easily ask for an extra \$50”, Staff, TweakTown

REVIEWS / MEDIA

The logo for Mac Sources, featuring the word "Mac" in a green, stylized font and "Sources" in a black, sans-serif font.

At around \$100, 1More has destroyed every other headphone set in or above their price range. I don't see myself going back to wireless for a while. Brian Wharton, MacSources

Piston Acoustic Technology Patented Composite Layers of Diaphragm

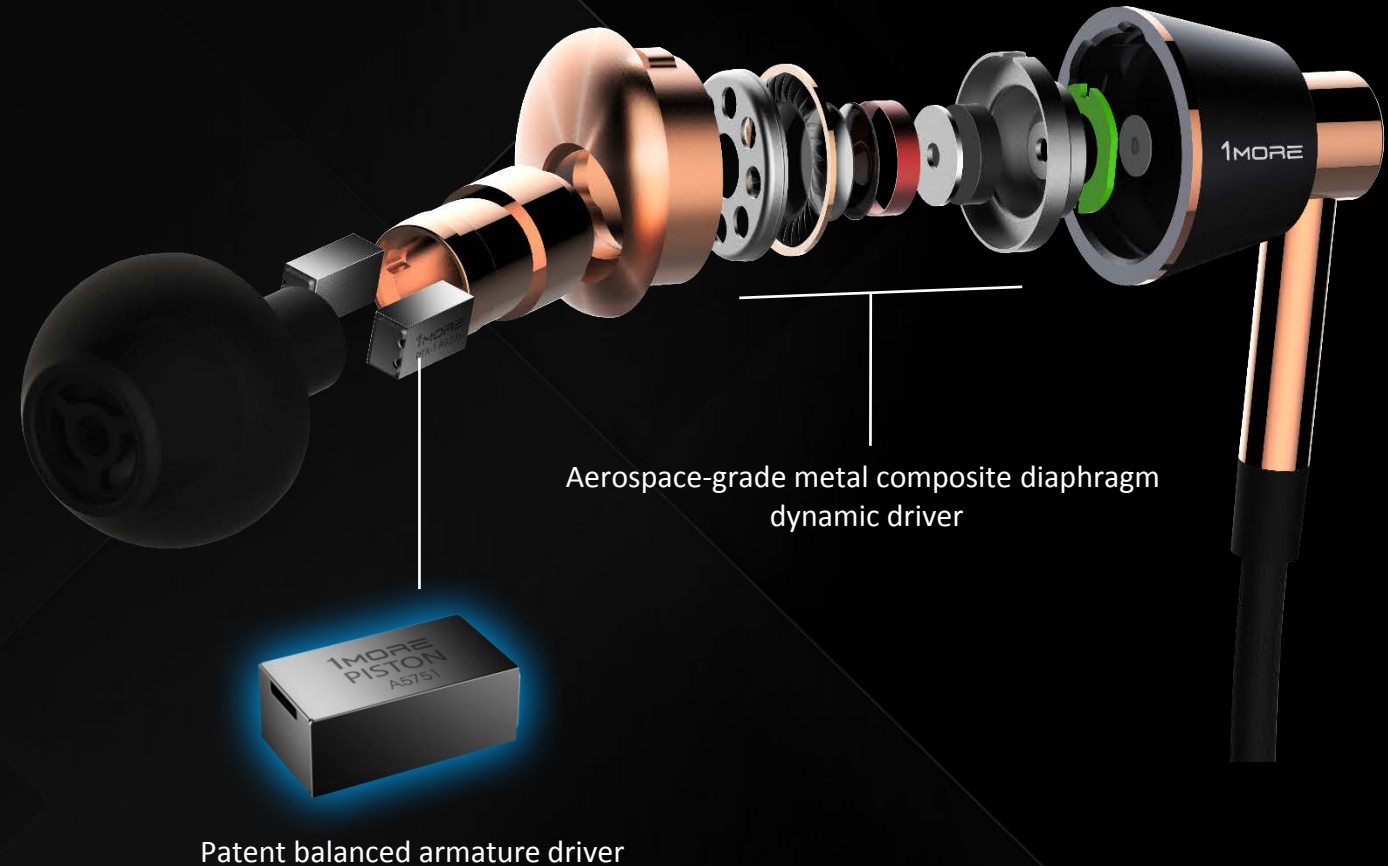

Patented triple layer diaphragm design allows the listener to hear music as the artist originally intended. The result is clear treble, immaculate midrange, and powerful bass.

Aero-space metal composite diaphragm (Explosion Fig.)

Meticulous Sound Applied with Triple Drivers

Two balanced armatures and a separate dynamic driver deliver an extremely powerful yet intimate listening experience. Together they create a spacious and transparent feeling of having nothing between you and your music. Our patented armatures work together to deliver sizzling highs and can withstand extremely high input power without distortion. They have an extended frequency range up to 40,000 Hz to reproduce high-resolution audio. Frequencies in this range add “transients”, a sonic quality normally only heard in live music. The armatures are uniquely inset with durable silicone covers for lasting performance and resilience. Our patented triple layer driver with aerospace grade metal inside two outer layers of PET, a resilient polymer, greatly increases bass and midrange response time, definition, and fullness.

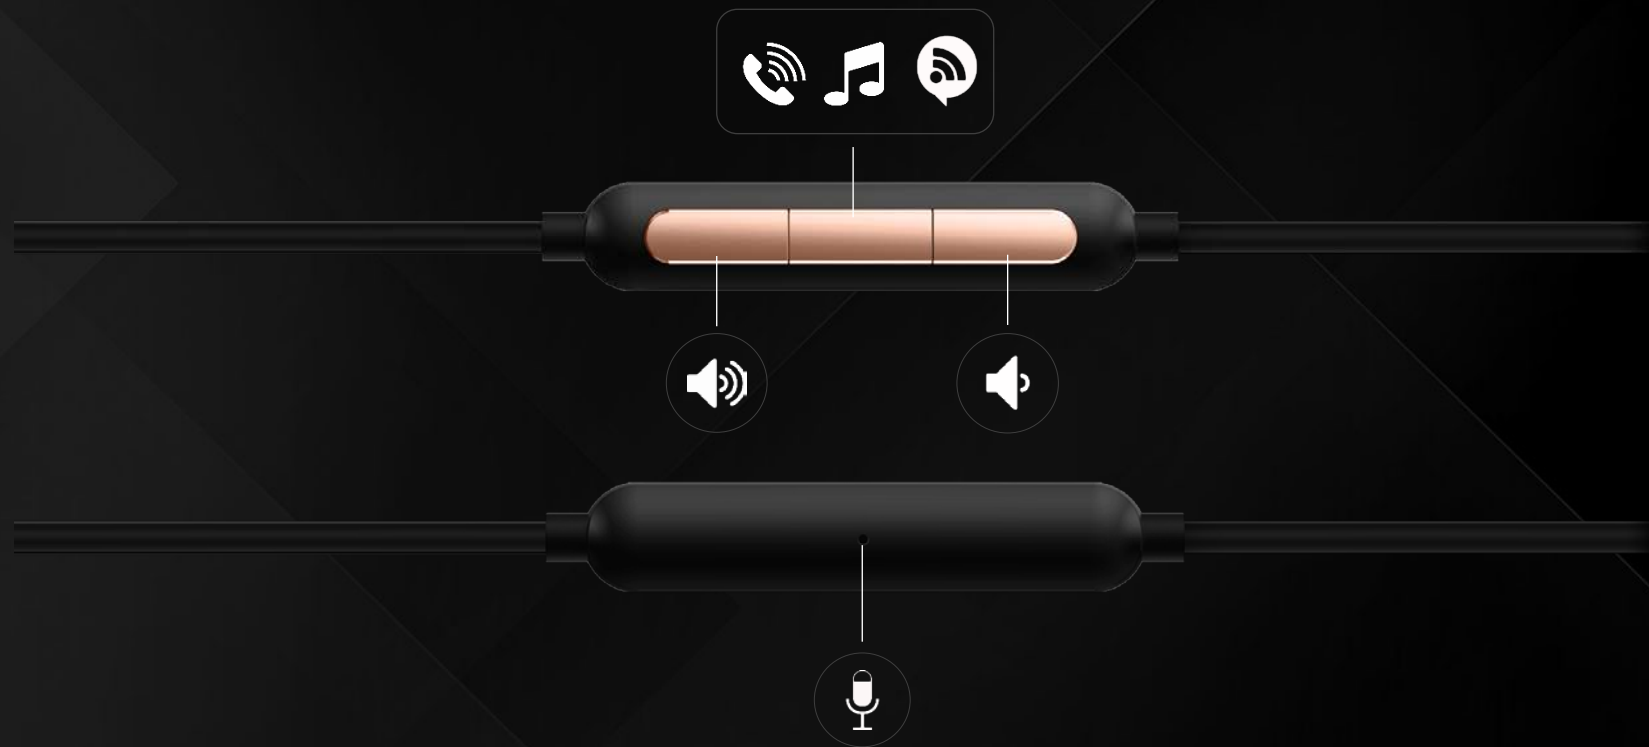

Patent balanced armature driver

Dual-system intelligent controls

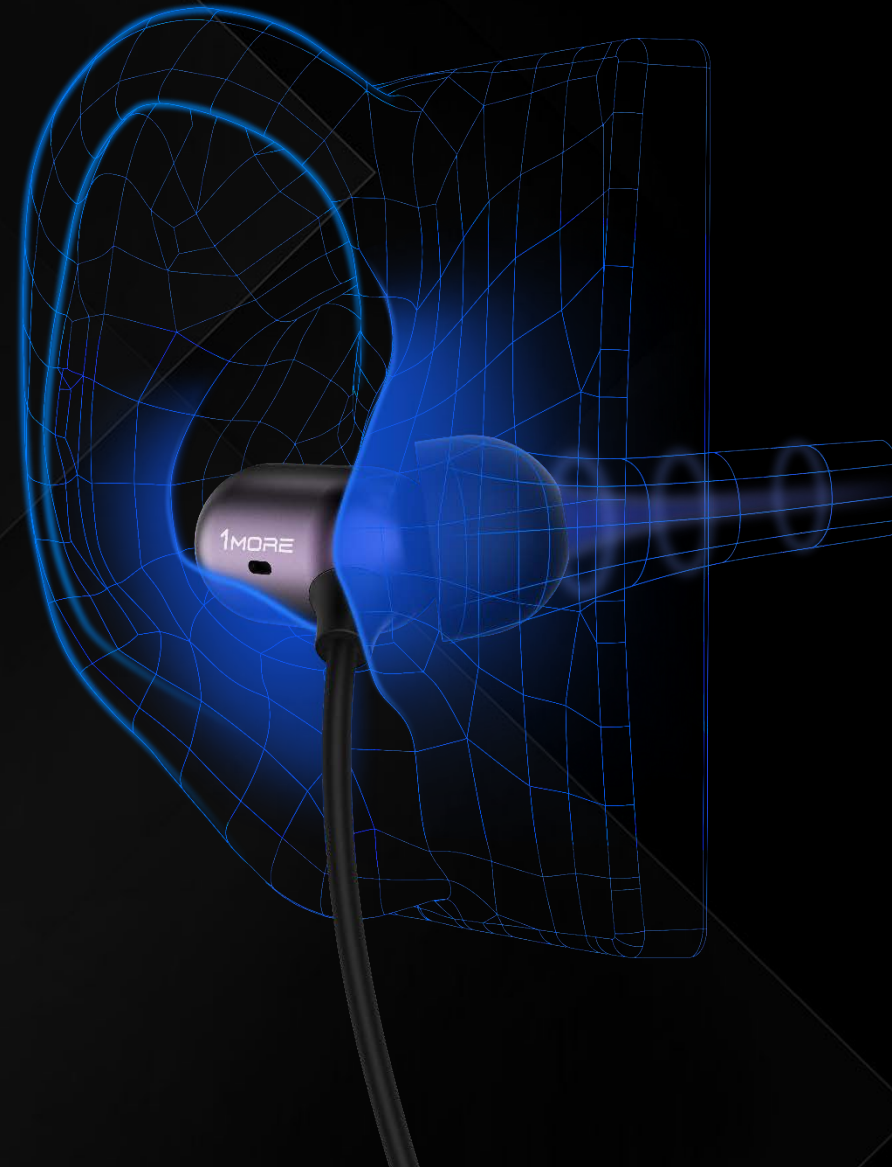

Compatible with iOS and Android

Dual-system intelligent controls are compatible with both Apple iOS and Android systems, allowing the user to change volume, play/pause, and take calls.

Precise Ergonomic Design

According to the medical canal data of various age sections and different genders, we designed an average size of ear buds with a more comfortable way to fit in.

Media Review

“Rich sound and luxury feel.”

“You never feel like these buds are going to blow you out of the water down low.”

“I was rewarded with a level of dynamic slam, especially in the mid and low bass, that rivaled any in-ear I’ve used.”

“I was amazed at the quality and range of sound that these produced, from treble to bass. “

Recommendations

Former CEO of Sennheiser Asia - Marc Vincent

“For ears, eyes and hands, 1MORE product full with sense of quality and taste.”

Famous American Producer & Sound Engineer - David Kellogg

“1More is offering something unprecedented- supremely accurate and professionally balanced earphones that are elegantly designed and incredibly affordable.”

American Senior Reviewer - Ian Scott-Parker

“Nothing seemed to be outside the capabilities of these earphones.”

1 MORE Piston Classic (In-Ear)

Metal Composite Diaphragm A better taste with surging and melodious sound

Millions of people like the classic style. It's the very style we need to extend. We've selected metal composite diaphragm, to allow the metal clip to have outstanding performance in high frequency, give you a mellow sound in detail. PET materials are flexible and soft, which provide a mellow mid-sound as well as strong bass. Tie in optimized program, make you feel more comfortable, balance and shock. Will not get bored though listen for a period of time.

1MORE Crystal Piston Earphones

- Swarovski ® elements
- Luxury quality
- Vivi listening experience
- Dual-system intelligent control

1 MORE Active Bluetooth In-Ear Headphones

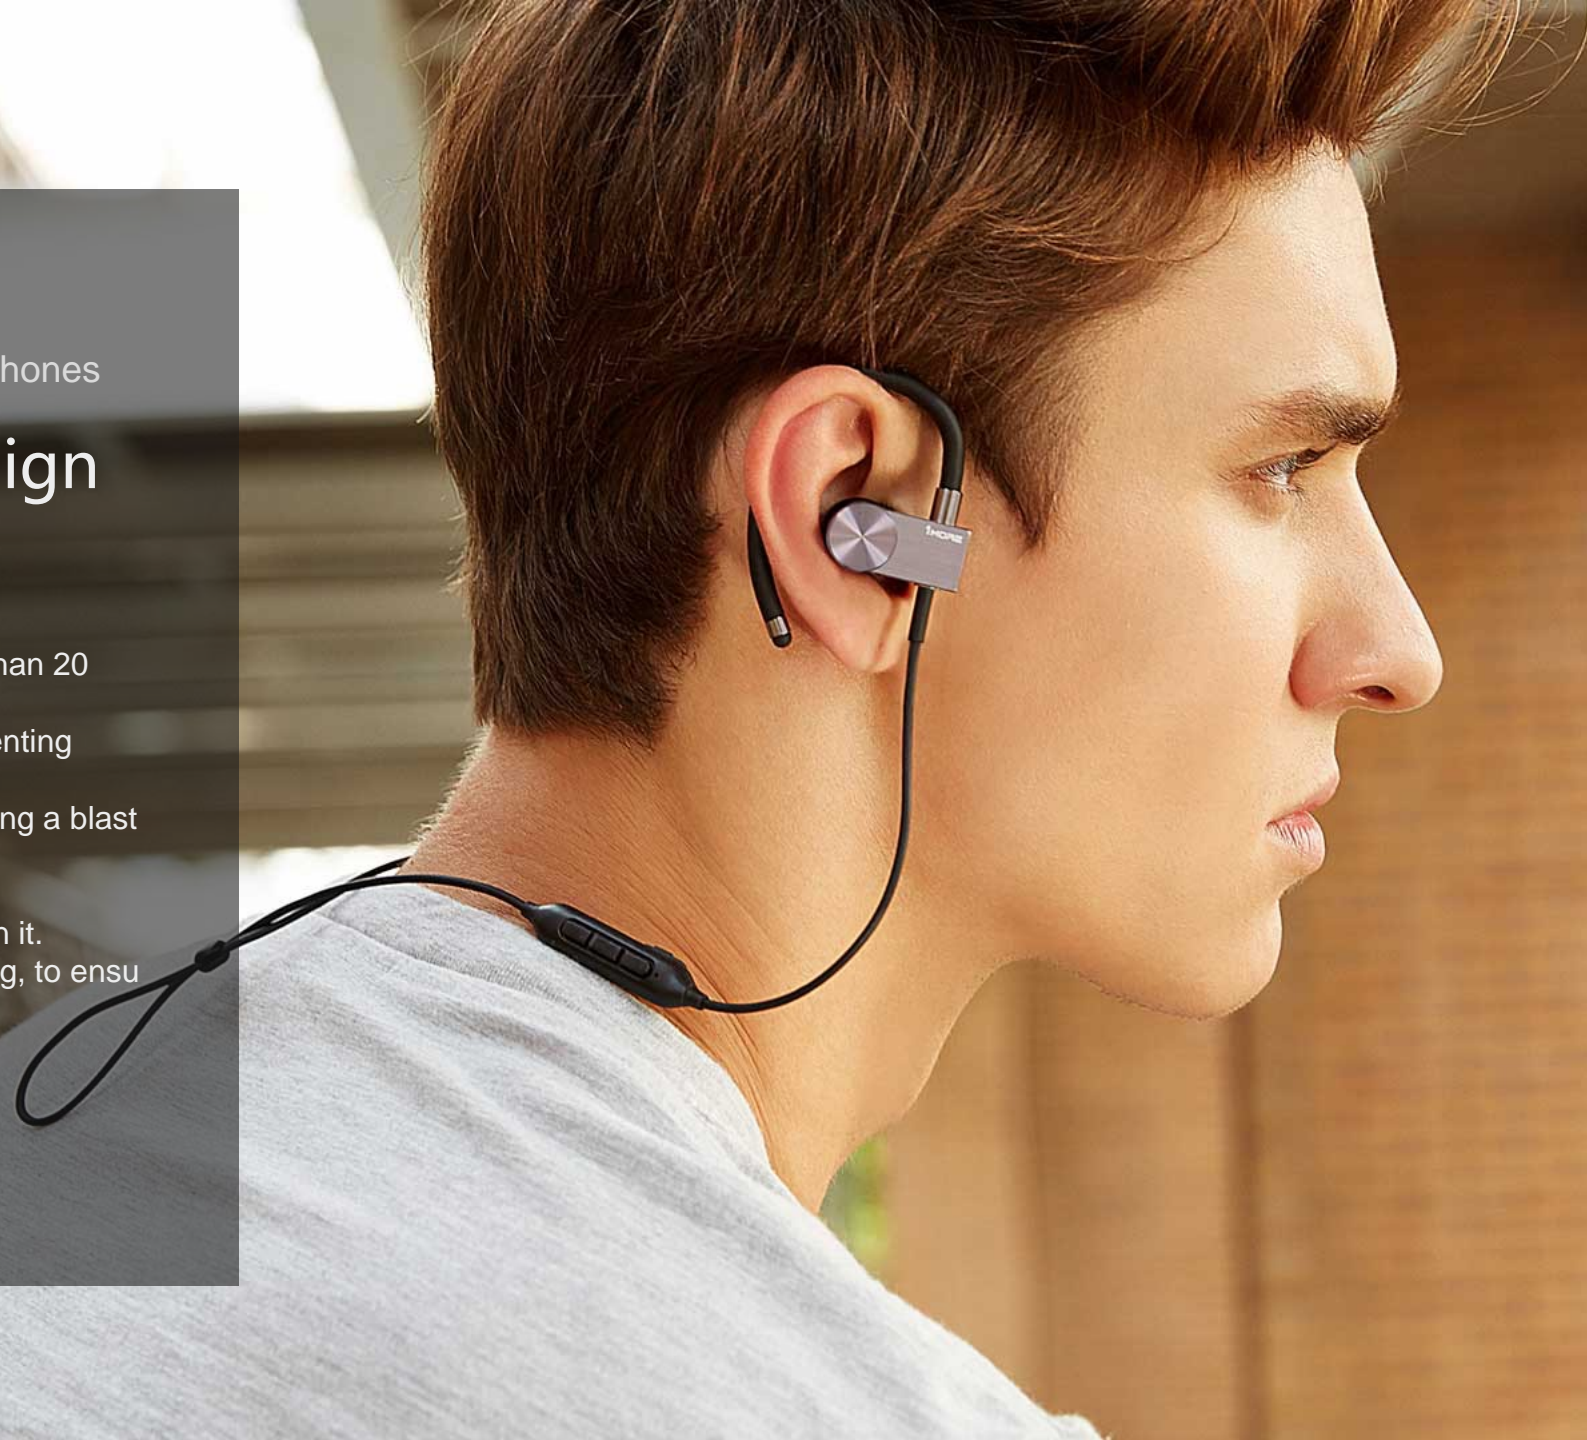

Nordic minimalist design Light-luxury fashion

Metal surfaces of the headphones uses more than 20 sophisticated metal processing:

CNC precision carving “disc-like pattern”, preventing fingerprints and scratches.

High light brushed metal surface and edges using a blasting process. The headphone hooks made with advanced engineering plastic molding and a metal decorative embellishment is decorated on it.

Metal surface using Anodic oxidation processing, to ensure that color always like new--ruby red and the titanium black in your life!

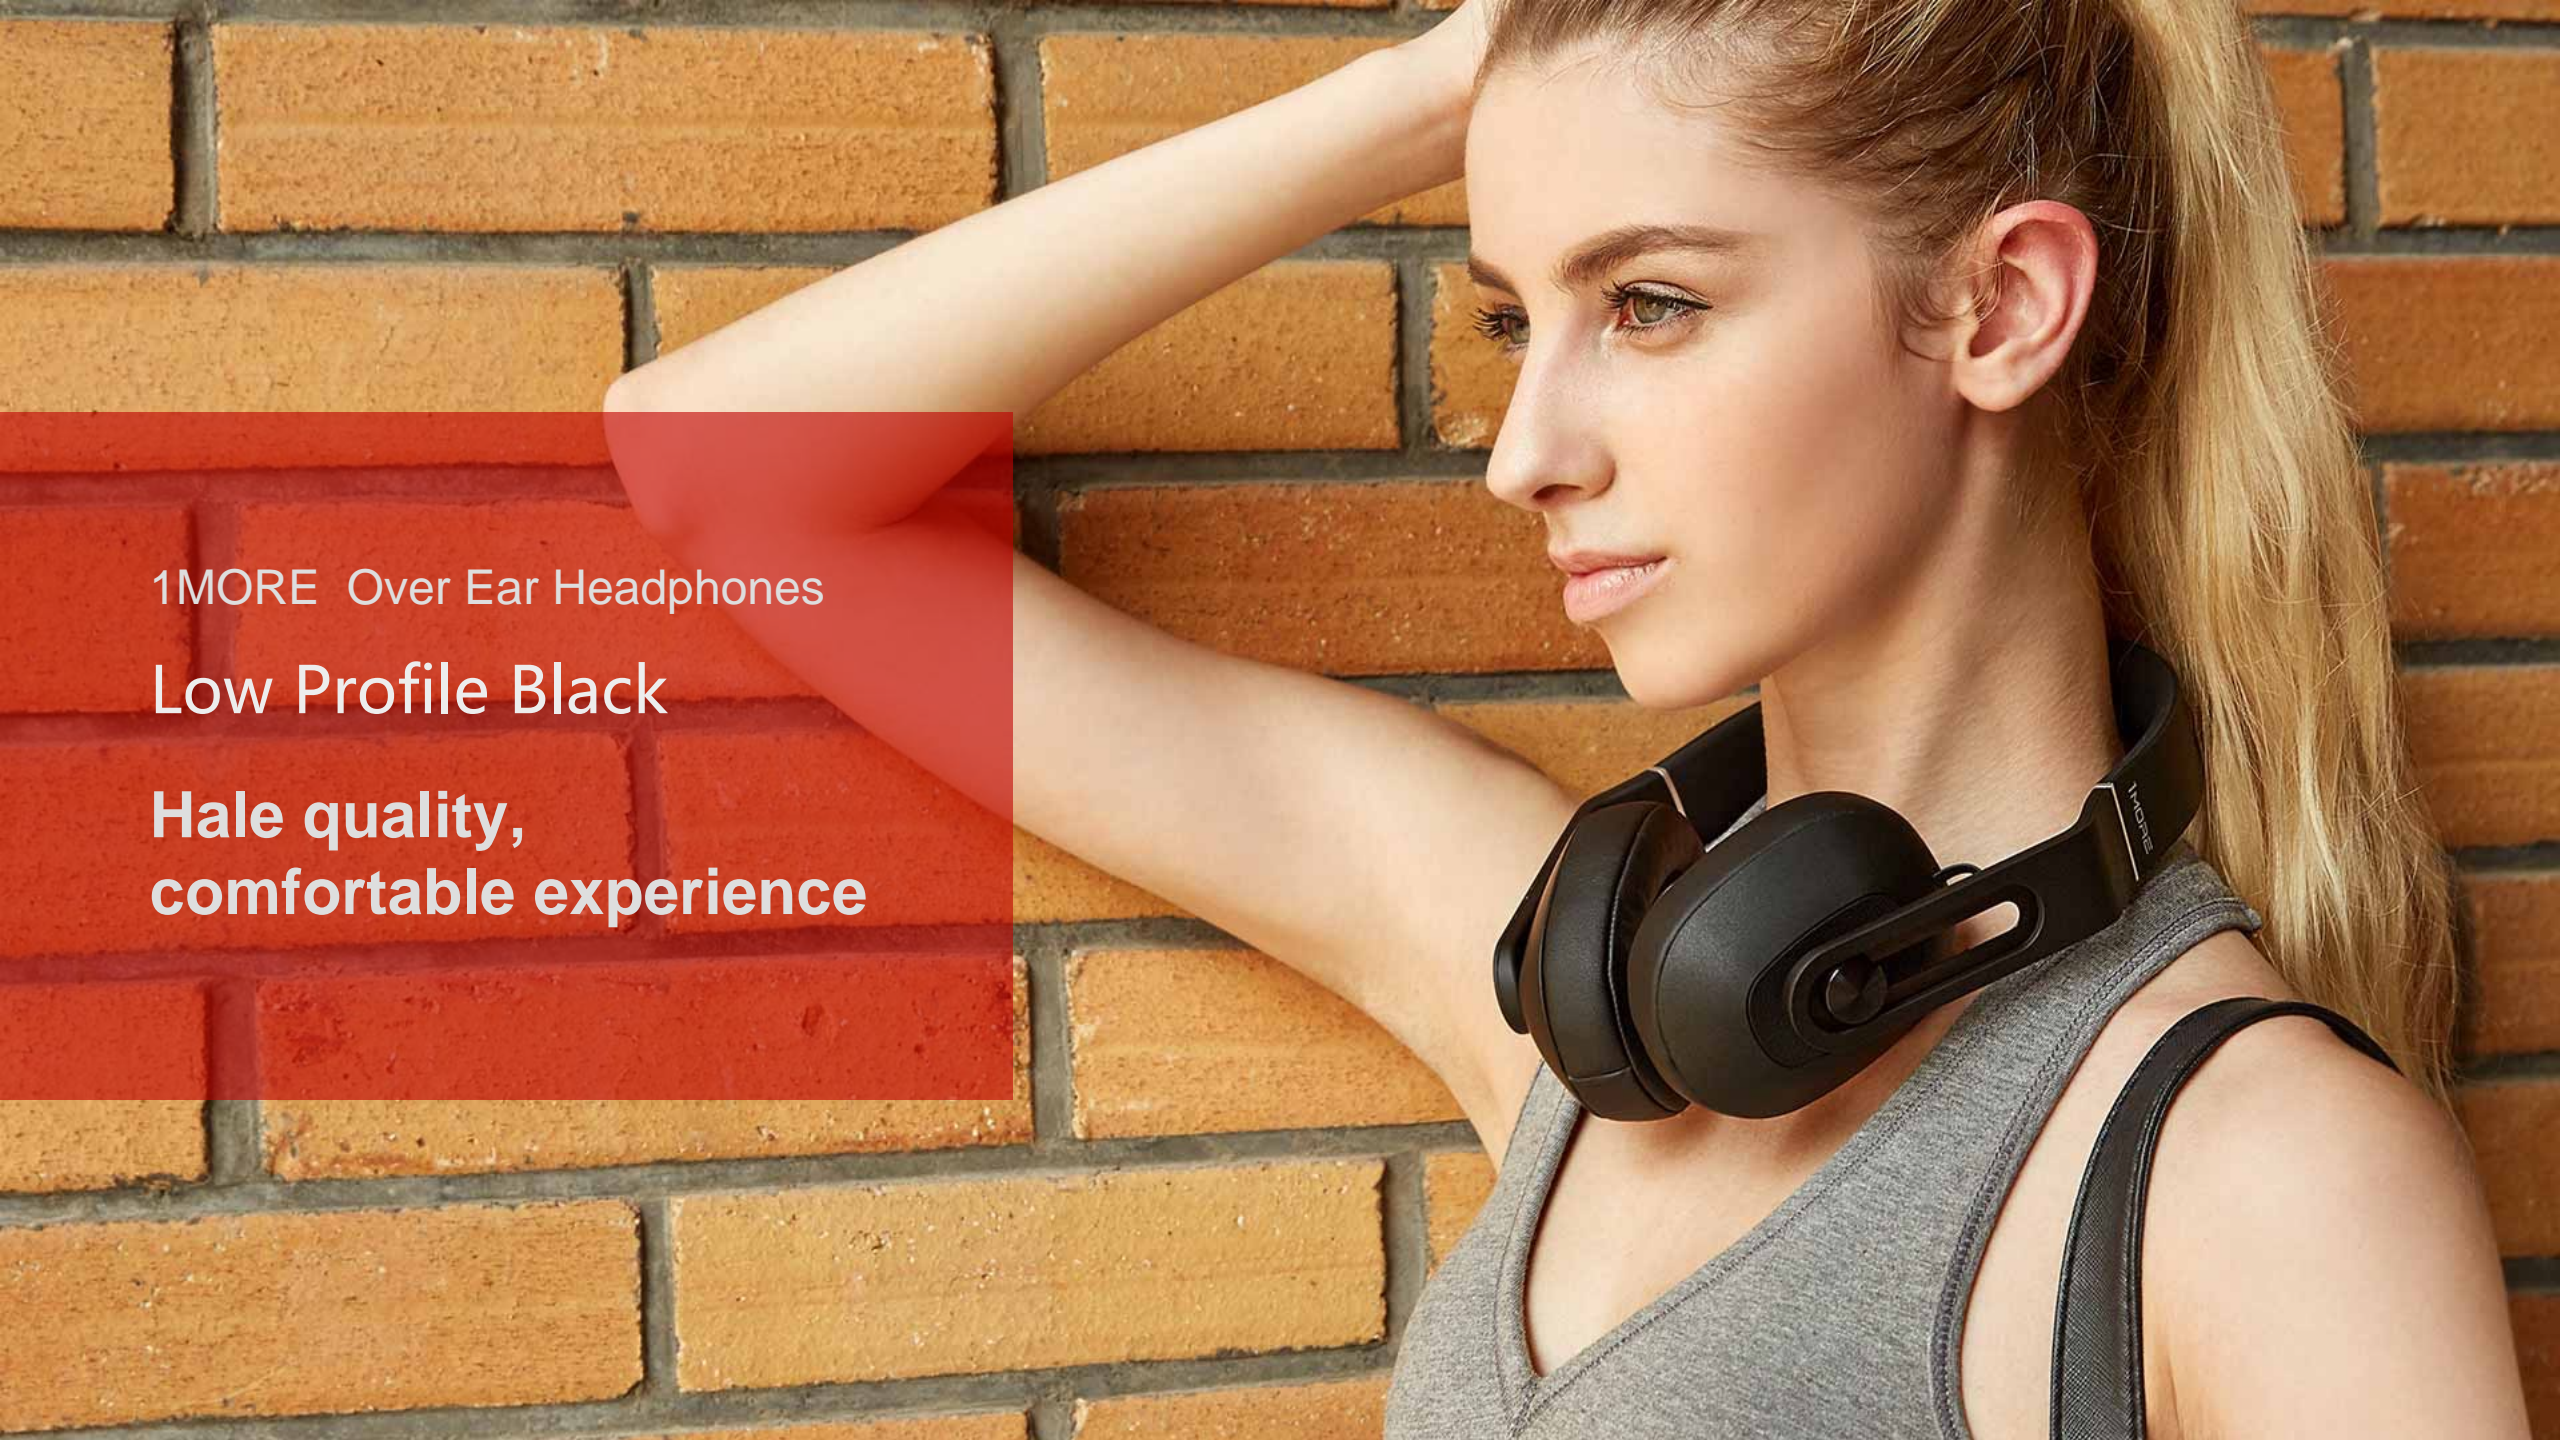

1 MORE Triple-Driver In-Ear Headphones

COMFORTABLE ERGONOMIC DESIGN

Our In-Ear Triple Driver's have oblique angles that naturally match your ear canals. They come with seven sets of silicon ear tips and three sets of memory foam ear tips ensuring a perfect fit. Besides fit, the silicon enhances lower frequencies while the foam enhances higher frequencies to satisfy your sonic preferences. The snug fit increases noise isolation and bass, eliminating the need for unnatural and unhealthy boosting.

1MORE Over Ear Headphones

Low Profile Black

**Hale quality,
comfortable experience**

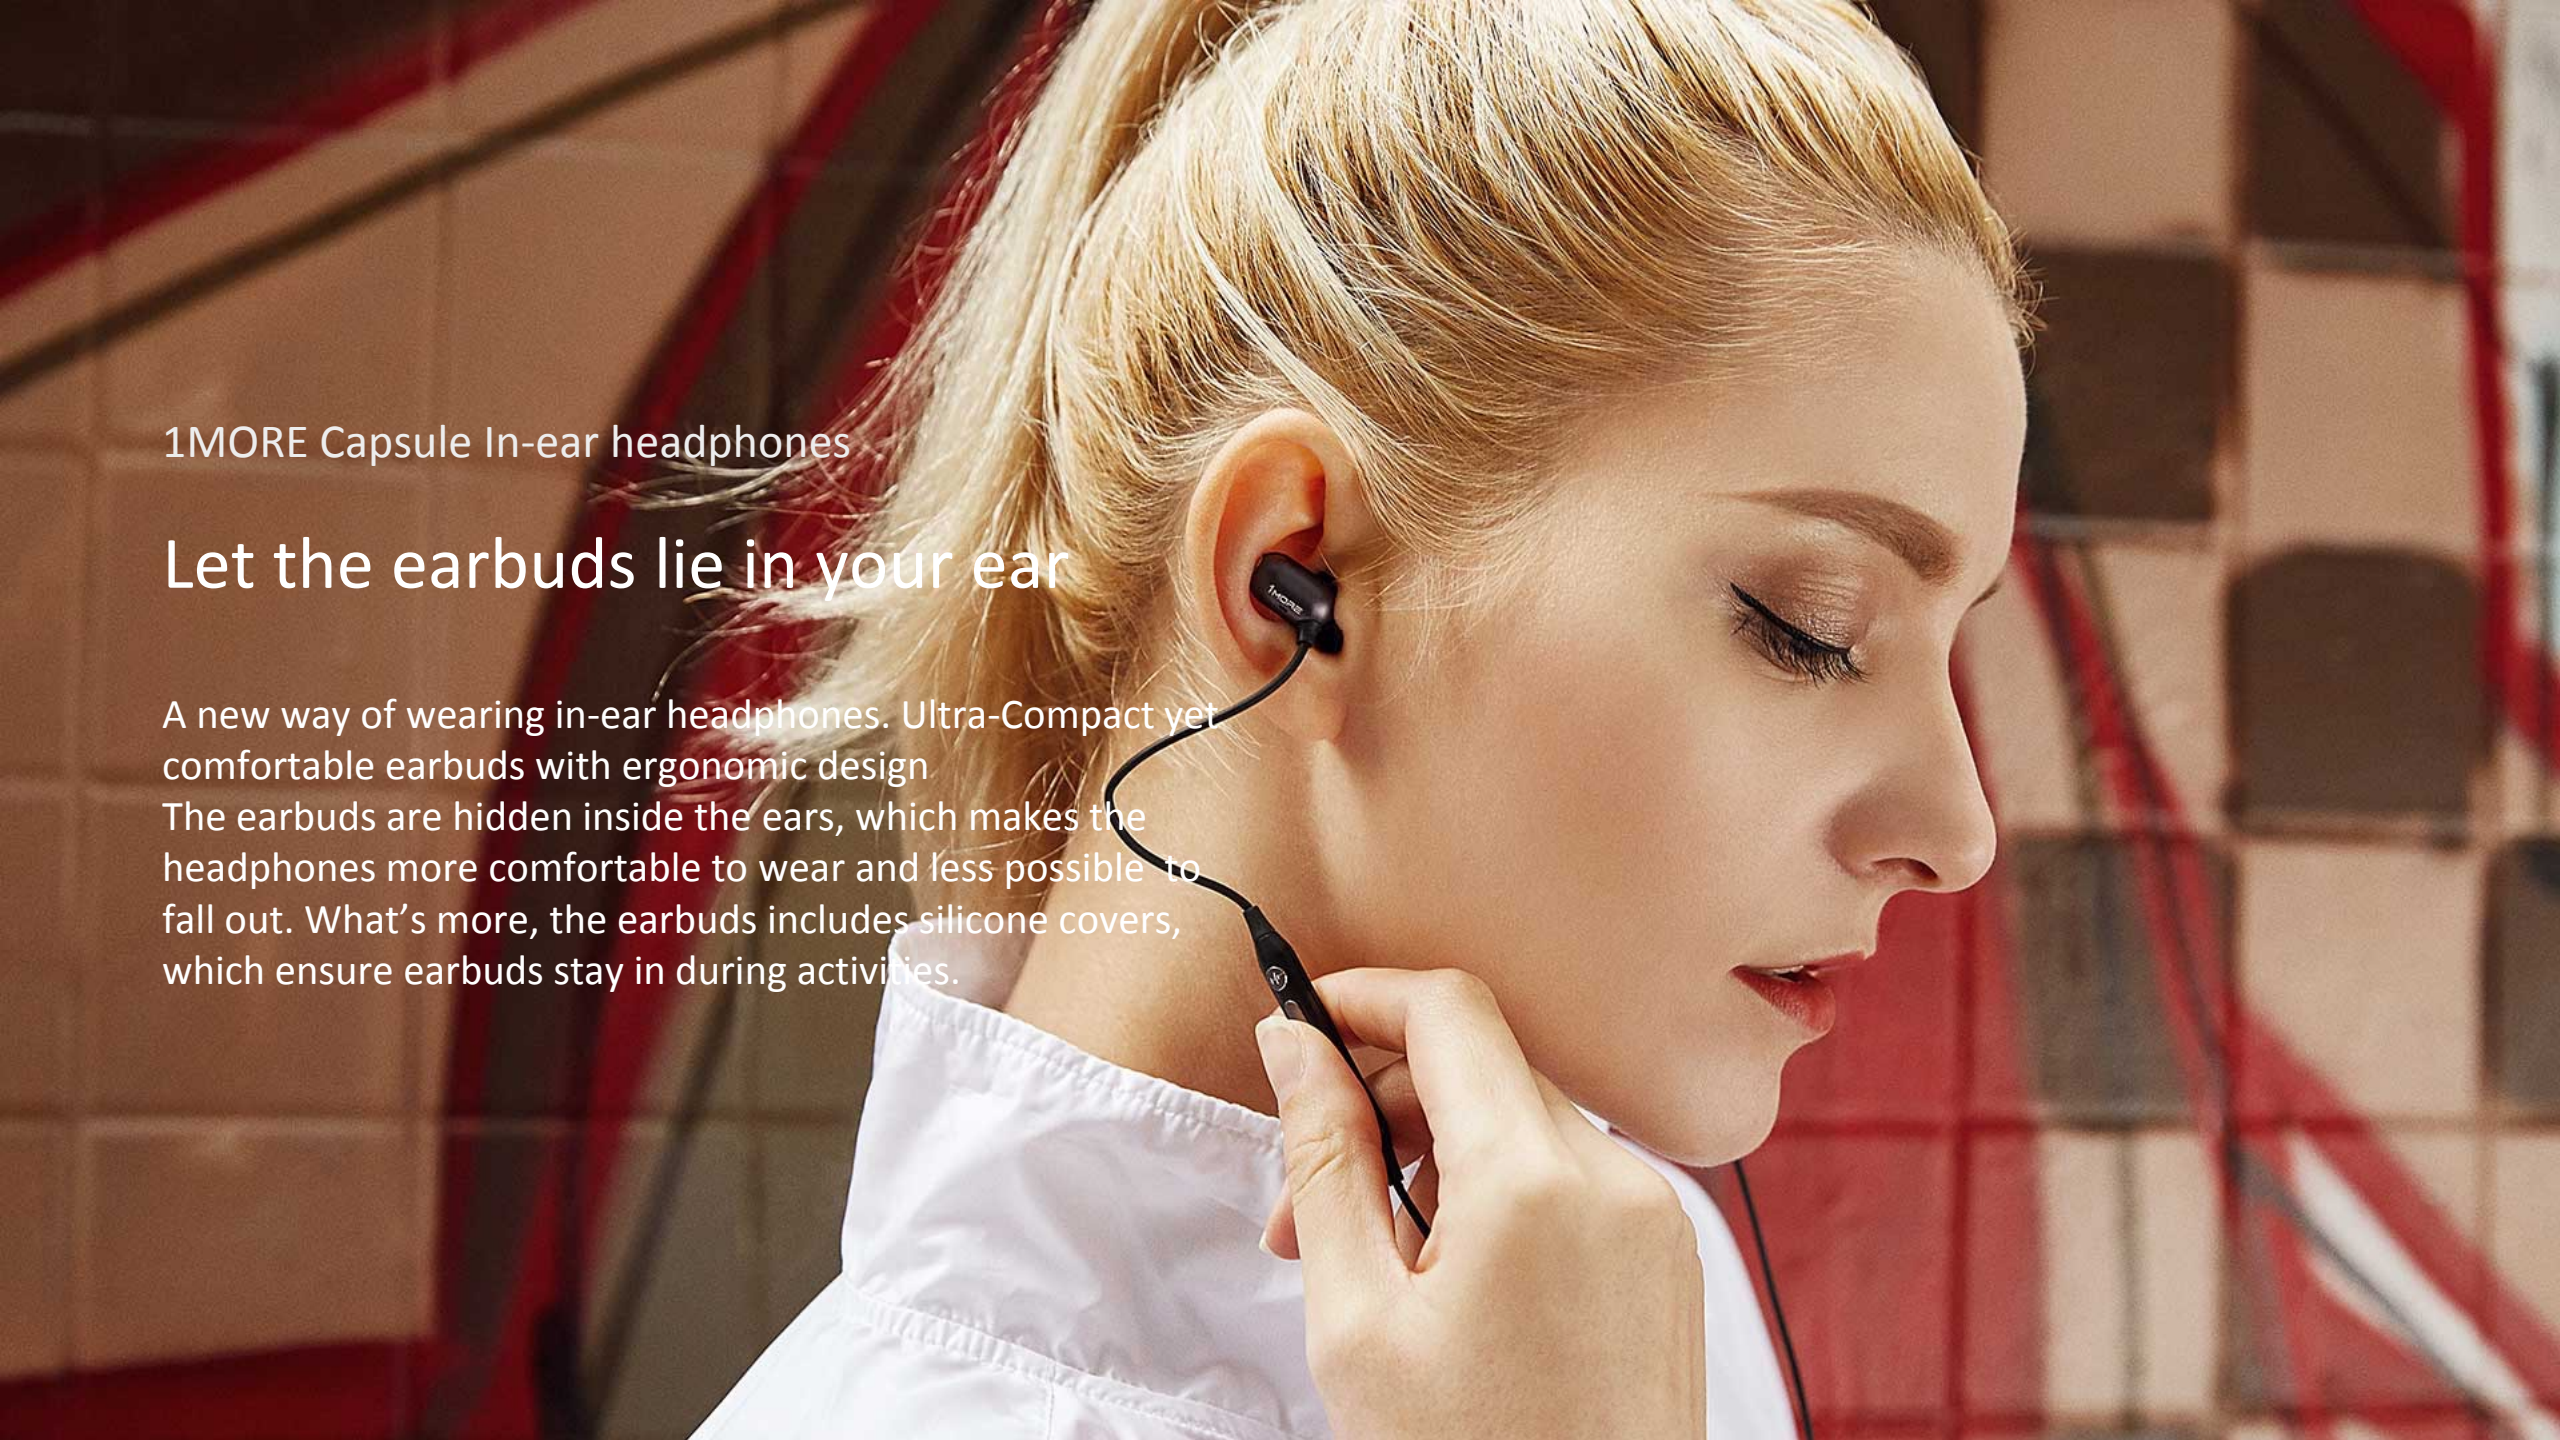

1 MORE Bluetooth Over-Ear Headphones

HIGH QUALITY SOUND IS MEANINGLESS WITHOUT A COMFORTABLE FIT

The ear cups of these headphones rotate in four directions, so that you can customize them to the perfect position for your ears.

The solid headband is manufactured with shape memory TR-90 titanium steel. Incorporating this material in the ergonomic design allows for the stretching required with everyday use. TR-90 steel is flexible, lightweight and sweat resistant.

A MUSIC PRODUCER'S REVIEW OF 1MORE'S TRIPLE DRIVER HEADPHONES

[Home](#) > [News](#) > A music producer's review of 1MORE'S Triple Driver In-Ear Headphones

February 05, 2016

review

By: David Kellogg

The sonic quality of 1MORE'S Triple Driver In-Ear Headphones came as an utter surprise in a market where high-end multi-driver in-ear monitors have generally cost \$800 and up. Recent competition in a growing market where consumers are beginning to demand the sound quality pros and audiophiles have demanded for years has brought prices down, but not this far, and not for a product this good.

Shure's E500's and UE's Triple.fi 10's are two examples of offering pro quality headphones at a lower cost. They retail respectively at \$499 and \$399. Here comes the boom, and not the fake boom cheap headphones give you... 1MORE'S triple drivers retail at \$99! That's less than 1/3 the cost of any other triple driver I'm aware of on the market.

“1More is offering something unprecedented- supremely accurate and professionally balanced earphones that are elegantly designed and incredibly affordable.”

—David Kellogg

<http://usa.1more.com/blog/news/11499/647-5-1more-producer-reviews-1more-triple-driver-inear-headphones>

David Kellogg has been a career sound engineer and producer for 25 years. He works at studios including the world's top recording studios and producers such as Bruce Yip, George Nino and many others. He has worked with Jimmy Cliff, Fall Out Boy, and many others. He is a member of the Recording Academy.

February 17, 2016
8:17 AM PST

by Steve Guttenberg
@AudiophileMan

I get a lot of headphones in for review from brands I've never heard of. Most of them are nothing special and some are outright stinkers, but then there are the ones I want to know better. **iMore's Triple Driver in-ear headphone** was in the last category, not least because the packaging was elegantly presented and easy to sort out.

The Triple Driver's beautifully finished aluminum ear pieces and Kevlar-reinforced cable inspired some confidence that this headphone might be able to withstand some abuse. Each earpiece

The iMore Triple Driver in-ear headphone

中国1MORE、コスパの高いアルミ製イヤホン - 防振システムを採用

[2016/05/20]

- ✓ **【プレゼント】多機能・高音質・丈夫！モバイルバッテリー付ワイヤレススピーカー** [PR]
- ✓ **【今がお得】ブラザーの多機能プリンター購入で2000円キャッシュバック!**
- ✓ **【ビジネスプリンター-NAVI】ブラザーのプリンターを性能・使い方・導入事例で比較**
- ✓ **【小さっ!】第6世代Core i5+480GB SSD、約660gの超小型PC!**

フリーウェイは5月20日、中国1MORE(ワンモア)のイヤホン「1MORE Piston Classic」を発表した。5月21日から、ポータブルオーディオ専門店「e☆イヤホン」にて先行発売する。価格はオープンで、e☆イヤホンでの販売価格は税込2,980円。カラーはゴールド、ピンク、グレーの3色。

1MORE Piston Classic

1MORE Piston Classicは、ダイヤモンドカットを施したアルミ製きょう体を採用するダイナミック型のイヤホン。ラテン・グラミー賞を受賞したサウンドエンジニア・Luca Bignardi(ルカ・ビグナルディ)氏が最終チューニングに参加している。

振動板にはチタン素材とPET素材を使用。2カ所のポートから不要な音圧を逃がす「デュアル防振システム」を採り入れており、ノイズを抑えたピュアなサウンドを実現するという。

ケーブルは防弾チョッキにも使われるケブラー素材で覆われており、丈夫で絡みにくくなっている。また、iOS・Android両対応のマイク付きリモコンを搭載している。

“中国1MORE、性价比非常高的铝製耳机，采用防振系统”

1MORE Capsule圈铁 入耳式耳机 评测

前言 🧐 关于1MORE：

本身是小米背后的耳机设计团队，独立化的运作曾经一度疯狂打算收购某国际B字头品牌（最后幸亏某香港人据说高价作X没卖成）。在科技树技能专精方面，这家公司是依靠富士康原来负责IPOD和Kindle的负责人谢冠宏为首的台湾系领导层，所以高层本身电子工科技能点到爆。🧐 声学方面则是通过砸钱挖人各种方式，毕竟大资本不难请到各路高手。

反倒是这家公司的蓝牙科技树表现相当抢眼，要不是后来某次发布会上否掉了我比最喜欢的声音版本的蓝牙头戴，差点就相信这个牌子要上天了。🧐 （事实上很多牌子不是调音不行，而是偏HIFI的老调音觉得

“比较出彩的还是要数这货的线控相当精美，造型也做得相当漂亮，这超越了我以前看过不少国内品牌的线控设计。”

百元级耳塞的新选择——1MORE评测

2016-03-24 00:26

1MORE金澈耳机加强版 | 0条评论

很难得的机会得到了这款1MORE金澈耳机，说难得是因为等待的过程经历了很漫长的时间，真是千呼万唤“屎”出来。从去年开始等，一直等到今年才刚刚到手。说回正题，大家对入耳式耳机和头戴式耳机都非常熟悉了，但对这种平头的耳塞式耳机已经疏远了很多，下面我就来为大家介绍一下这款1MORE金澈耳塞式耳机。

“这款百元级的耳机有超出了这个价格的发挥，虽然无法和高端耳机相比，但无论是高音、中音还是低音，与三百元左右的耳机都不相上下。”

—— igao7

<http://www.igao7.com/news/20160324/1MORE金澈耳机加强版评测>

1More Triple Driver E1001 im Test

Die Firma 1More, welche auch hinter der Entwicklung der sehr beliebten [Xiaomi Piston 3](#) und [Xiaomi Hybrid](#) steckt, bringt mit dem 1More Triple Driver E1001 einen preislich erschwinglichen Hybrid In-Ear Kopfhörern mit 3 Schallwandlern heraus.

Der 1More Triple Driver dürfte der derzeit preiswerteste In-Ear Kopfhörer mit 2 Balanced-Armatur Treibern und einem dynamischem Treiber pro Seite auf dem Markt sein. Nun hatten wir die Gelegenheit den Triple Driver ausführlich zu testen.

1More Triple Driver

9.2
TESTBERICHT

PROS

- + Gute Bassbetonung, sehr klare Mitten und Höhen
- + Gute Tiefenstaffelung und Instrumentenseparation
- + Sehr gute Auflösung
- + Viel Zubehör
- + Sehr gute Preis-Leistung
- + Gute Verarbeitung
- + Ansprechendes Design

CONS

- Für manche vielleicht zu viel Bass
- Gerader Klinsenstecker

BEWERTUNG

Der 1More Triple Driver gehört klanglich zu den besten In-Ear Kopfhörern um die 100 Euro, besonders die sehr gute Auflösung und die klaren Mitten und Höhen machen den Triple Driver zu einer Kaufempfehlung, wenn ein In-Ear Kopfhörer mit einer guten Bassbetonung gesucht wird. Zudem ist die Verarbeitung gut, die In-Ear Kopfhörer kommen mit reichlich Zubehör und sie sehen sehr edel aus.

“Die Firma 1More, welche auch hinter der Entwicklung der sehr beliebten [Xiaomi Piston 3](#) und [Xiaomi Hybrid](#) steckt, bringt mit dem 1More Triple Driver E1001 einen preislich erschwinglichen Hybrid In-Ear Kopfhörern mit 3 Schallwandlern heraus.“
